STUDENT LED EFFORT
The survey was conducted in April 2017 and developed by UCSF graduate students of the Associated Students of the Graduate Division (ASGD) in collaboration with UCSF Graduate Division Staff.

45% Survey had a high response rate, 45% of the UCSF graduate student body filled out the survey.

MENTEE SATISFACTION DECREASES OVER TIME
83% of students report being satisfied with the relationship with their mentor in year 2, but only 33% are still satisfied by year 6.

NON-RESEARCH COMPONENTS OF MENTORSHIP NEED IMPROVEMENT
Most mentees are satisfied with guidance on their research but other components of mentorship need work such as communication of expectations, discussion of career goals, and pursuit of other training opportunities outside the lab.

WORK CULTURE MOST CITED REASON FOR THINKING ABOUT LEAVING GRAD SCHOOL
43% of students have thought about leaving grad school with the most cited reason being the work culture at UCSF or in academia. The third most cited reason is issues with their PI.

UNDER REPRESENTED STUDENTS ARE MORE LIKELY TO...
- Not ask for help with career goals
- Not ask for help with graduating
- Switch Labs
